Please check my online portfolio website for more work examples.

I have a strong passion for geospatial science, sustainable development and design. I believe myself to be a very positive, confident, and friendly individual that always strives to achieve goals both inside and outside the workplace. I have over four years' experience working within the international field and look forward to expanding my skills.

EDUCATION

- December 2020 - Present
United Nations Satellite Centre (UNOSAT)
Geneva, Switzerland
- May 2018 - May 2019
July - November 2020
United Nations ESCAP
Bangkok, Thailand
- August 2017 - Oct 2018
Geoinformatics Center - Asian Institute of Technology
Rangsit, Thailand

Geospatial Analyst

Geospatial and satellite imagery analyst for development and humanitarian projects. Including ESRI and open source technology, desktop and online GIS and satellite imagery analyst.

International Consultant

ICT and geospatial application planning and policy, project management, diplomatic meetings and events. Contributing to publications and documents regarding geospatial data within UN standards (written and maps).

Research Associate

GIS and remote sensing analysis for disaster risk management projects. ArcGIS Online web map creation, design and infographic creation.

EXPERIENCE

- 2019 - 2020
RMIT, Melbourne - Australia
- 2014 - 2017
University of Queensland, Brisbane - Australia

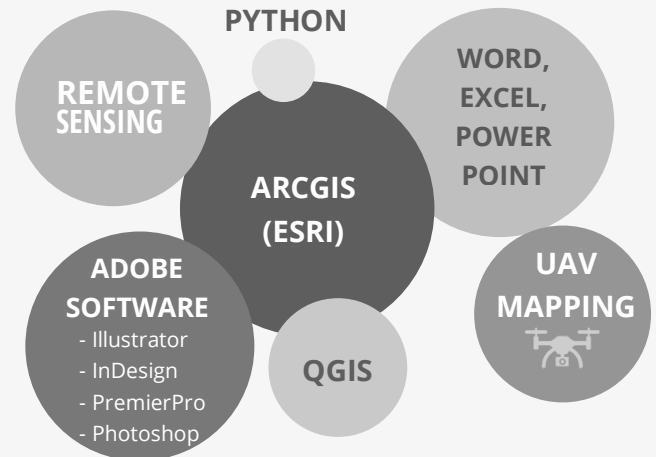

Masters of Geospatial Science

Thesis in geospatial access to ecosystem resources, for informal settlements, in Port Vila, Vanuatu. 3.9/4 GPA - High Distinction.

Bachelor of Science

Major in Geographical Information Systems (GIS). Other fields of study include: GIS, Remote Sensing, Urban Planning, Environmental Management, Maths and Science.

TECHNICAL SKILLS

SKILLS

- Teamwork
- Geospatial/ GIS
- Remote Sensing
- Surveying Data Collection
- Creative Thinker
- Problem Solver

EVENTS/ AWARDS

- World Youth Forum - November 2018, Sharm El Shiek, Egypt. Full sponsorship to attend the forum, which focused on Youth engaging and networking in topics of peace, development and creativity.
- World of Drones Congress Scholarship Recipient - September 2019, Brisbane.
- Speaker at Georabble Melbourne - October 2019.
- Awarded Postgraduate Surveying and Geospatial Science Prize 2020 (RMIT)
- Won the Deputy Vice-Chancellor's Postgraduate Coursework Prize (School of Science, RMIT) 2020
- Women in Geospatial + 2021 Oceania Regional Ambassador.
- One of the Geospatial World 50 Rising Stars 2022

HOBBIES

- Travelling**
In my spare time I like traveling and experiencing different cultures. I love to go on adventures and spend time outdoors.
- Geography**
I am passionate advocator for geography and in my spare time I like to product maps and infographics about world issues to share. I also like to volunteer my time within geospatial networks, such as the Women in Geospatial + network where I am currently an ambassador.
- Design Work**
In my spare time I also freelance video editing and graphic design, and have designed multiple brochures and booklets for different companies and organizations. I am proficient in using the Adobe Suite.
